

TECHNICAL DATA SHEET

SECUMAX 565 NO. 565001

Safety technology

Safe special ground - maximum safety

The cutting edges are not angled, but straight ground. This means: No danger for your fingers. Therefore our safety scissors all carry the name SECUMAX = maximum safety.

LARGE SMALL SAFETY SCISSORS WITH FINGER-FRIENDLY SPECIAL GRINDING AND ADDITIONAL OPTIONS.

Order No. 565001.00

The all-rounder. At work and at home.

Our all-purpose tool for professional cutting. Ideal for larger hands – or in case you wear gloves during work. Cardboard, paper, foils, fabrics and much more cannot withstand its powerful cuts. You also have the best protection thanks to the special sharpening and the rounded tips. The wire-cutter facility can be used to cut through wires and cables, and the additional grips integrated in the handle to open caps.

Sharp, but not dangerous!

Take a good look at the cuts. Noticed anything? None of them have been cut at an angle, as all of the cuts are at right-angles. Therefore you cannot cut yourself, only the large range of potential materials.

Non-rusting stainless steel

You will be able to use your scissors for a very long time as the metal parts are made from non-rusting stainless steel. The handles have been coated in a plastic reinforced with fibreglass. Another guarantee for a long service life.

Comfortable working

The experts call them “eyes” and these are the two big openings in which you insert your fingers to securely hold the scissors. The “soft-grip” on the insides also helps to ensure comfortable and non-slip working.

Unscrewing grips

Even though the SECUMAX 565 is an allrounder, it is not restricted just to cutting. A cap that you cannot unscrew? Just use the grips embedded in the handles and the problem will be solved in no time at all!

Integrated wire cutter

If you open the scissors a little wider you will be able to use the wire-cutter notch integrated above the screw. Simply slide the wire or cable in place and then cut it to the required length. This notch can also be used for stripping cables.

PRODUCT AND PACKAGING DETAILS

Order No.	NO. 565001.00	Packaging unit (PU)	1 on self-service card
Knife size (L x W x H)	216 x 13 x 83 mm	Size (PU)	110 x 250 mm
Weight knife	122.0 g	Weight (PU)	140.0 g
Basic material	Stainless steel	EAN Code (PU)	4002632921339
Extended blade length	70 mm	Quantity in outer pack	10 scissors
		Weight outer pack	1519.1 g
		EAN Code outer pack	4002632972652
		Customs tariff number	82130000

ENVIRONMENT

This SECUMAX 565 corresponds with the current REACH ordinance.

SECURITY ADVICE

Please read these instructions and keep them safe so that you can use your new MARTOR scissors safely and in the best possible way.

1. Usage advice: Always use the Safety Scissors with great caution, even though it looks like the protected cutting edge of the scissors fundamentally offers protection from cut and stab injuries. Please only use the scissors for the above-mentioned materials in an appropriate fashion and always carefully. With this in mind, respect the correct handling and usage of the Safety Scissors. Any other usage can lead to damaging the product or even other nearby items. Through inappropriate usage, e.g. knocks, bangs or falling from even a low height, the scissors can become damaged. In particular, the scissors must not be used in a way that can cause a

crushing hazard to the hands or other limbs. Always guide the Safety Scissors in a straight line away from you and keep them at a constant suitable angle.

2. Storage/Nonuse of the scissors: When you are not using the scissors, keep them in a safe place. If the scissors are visibly damaged, do not use them.

3. Care advice: Protect the scissors from moisture and heat and store in a dry place. From time to time, put a drop of oil in the screw slots so that the cutting action remains smooth.

CAUTION: No liability will be assumed for consequential losses. Subject to technical changes and errors! This scissor does not belong in the hands of children!

ACCESSORIES

**BELT HOLSTER M
WITH CLIP**
NO. 9921

What do you do with your cutting tools when you are not actually using them? The MARTOR BELT HOLSTER M is a robust holder that allows you to carry all midsize MARTOR cutters as well as our safety scissors at all times. In addition, the interior and exterior pockets are designed to allow you to load different tools: for example you can carry an extra cutter, a pen and a pack of blades. The MARTOR BELT HOLSTER is the ideal place to stow your tools safely when moving from A to B - and have them at hand, as soon as they are required.
